HOT WAVE STILL HOLDS ITS GRIP ON THE SOUTH

Temperature Breaks All Records, Being 114 at Dallas, Texas---Four Deaths Reported.

MEMPHIS, Tenn., Aug. 19.—Three deaths, two at Little Rock and the other at Jackson, Miss., were caused yesterday by the intense heat wave which continues to hold this section of the South in its grasp. New records were created by the climbing mercury through Mississippi, Louisiana and Texas and as yet little hope of relief is held out. The highest the mercury reached here yesterday was 94 degrees and towards night a breeze afforded some relief, but it was only local.

At Jackson, the record-breaking mark of 105 degrees was established; at Little Rock the mercury climbed to 101, at Natchez, Miss., it soared to 105; at Shreveport, La., a record mark of 110 degrees was recorded; Fort Worth, Texas, experienced no relief, and the mercury soared to the 113 mark; at Sherman 107 degrees was registered and the same mark at Palestine set a record for the past twenty-five years. All records were broken at Dallas, when 114 degrees was reached in midafternoon.

Two Deaths From Heat.

LITTLE ROCK, Ark., Aug. 19.—The storm that threatened Arkansas and which centered at Little Rock yesterday morning did not break because of the abnormal dryness of the atmosphere, and in the afternoon the temperature rose to 101. Two deaths from heat, those of Harrison Martin and Ike Worthen, occurred. Many animals were prostrated on the streets.

Prostrations at New Orleans.

NEW ORLEANS, Aug. 19.—What is believed by the local weather bureau officials to have been the climax to a period of intensely hot weather in New Orleans was reached at 3 o'clock this morning. At that hour a temperature of 100 degrees was registered, the highest, with one exception, recorded in New Orleans during the last thirty years. The record high temperature is 102, in 1901. A cool breeze from the Gulf offset the heat. Several persons were taken to the hospitals late yesterday after being overcome by the heat. One death was reported.

Eight Prostrations.

FORT WORTH, Tex., Aug. 19.—At 1:40 yesterday afternoon the thermometer registered 113 degrees. Up to 2 o'clock eight prostrations had been reported. At Sherman 107 degrees were registered, the highest in twenty years, and at Palestine 107 was also reached, the highest in twenty-five years. The water supply at Palestine is low and people are suffering severely from the high temperature and dust.

One Hundred and Fourteen.

DALLAS, Tex., Aug. 19.—The thermometer registered 114 degrees in the shade at 3 o'clock yesterday, breaking all records at the Government observatory. Correspondingly high temperatures are reported from various parts of the State. Cooler weather is predicted for today.

One Death.

JACKSON, Miss., Aug. 19.—Yesterday goes on record as the hottest ever experienced here. Observer Hintz reported 105 degrees. One person, a negro, died from prostration.

At Vicksburg.

VICKSBURG, Miss., Aug. 19.—Vicksburg is still in the grasp of the terrible heat wave, the thermometer having gone to 99 yesterday.

Highest August Record.

MOBILE, Aug. 19.—The maximum temperature yesterday was 101 degrees, the highest recorded in August since the founding of the weather bureau thirty-eight years ago. This has only been exceeded once in July, 1901, when the maximum was 102. Two prostrations were recorded.

All Records Broken.

SHREVEPORT, La., Aug. 19.—All heat records were broken here yesterday when the Government thermometer reached 110 degrees. There were no prostrations.

No Prostrations.

NATCHEZ, Miss., Aug. 19.—The mercury reached 105 at 3 p. m. There were no prostrations.

Unruly Negro Shot Dead By Ed Croft at Lake Butler

LAKE BUTLER, Aug. 19.—News has reached here that a negro farm hand of S. S. Croft had been shot by him, and a coroner's jury was empaneled and proceeded to the scene of the killing, when upon arriving there it was found that Edward Croft, son of Sam Croft, was the one that did the shooting.

The negro had been working for Mr. Croft for quite a while but was all the time somewhat unruly and had made Mr. Croft, who is a good, peaceable, law-abiding gentleman, threaten him time and time before yesterday.

Tuesday the negro came up to the lot where Mr. Croft was assorting some corn and began in the usual manner until Mr. Croft attempted to restrain him, when the negro, Jake Tyler, threw a piece of iron at him. This made Mr. Croft mad and he made at Tyler with a hoe, which Tyler took away from Mr. Croft and drew to hit him, when Mr. Edward

who is a one-legged man, had crawled from the dwelling to the lot, told the negro not to hit his father or he (Ed) would kill him. The negro's wrath seemed to change from Mr. Croft to his son, and he started to Ed with the hoe. Ed shot over his head one time but the negro never stopped and then Ed took deliberate aim and pulled the trigger, which caused a 38 bullet to enter just above the negro's right ear and lodge among the center of reasons.

After receiving this wound the negro staggered some forty feet backward and fell dead.

Justice Poppell empaneled the following-named gentlemen as the jury, of which Mr. C. A. Roberts was foreman: C. A. Roberts, George W. Whitmore, F. P. Odum, N. E. Roberts, S. A. Douglas, F. N. Andrews. After hearing the evidence the jury retired for a few minutes and returned the verdict of justifiable homicide.

WORTHINGTON SPRINGS.

WORTHINGTON SPRINGS, Aug. 19.—The ginning season has begun in earnest now. Mr. W. J. Hatcher is having three bales ginned. Messrs. Andrews, Parrish and Ellis brought in a bale each yesterday, and sold to W. J. Hatcher. Mr. Stephens has enlarged his ginney, and is prepared to run day and night.

Rev. Laine is going among the citizens getting subscriptions with which to build a Methodist church here. He seems to be having fair success in this undertaking. Much praise is due this brother inasmuch as he is not a resident here. Mr. Lamb has donated the site, and as soon as necessary funds are subscribed, work on the building will commence.

Capt. John Jackson left for his home in Archer yesterday. He is one of the most pleasant guests that has ever patronized this resort. He made many friends while here who anticipate his return with pleasure.

Mr. Lamb is laying a new and larger water pipe from springs to tank on the hill. Having recently installed new pump he has a capacity more than double the old equipment.

W. J. Hatcher left Saturday for his old home in Lake City to spend Sunday with his family, returning Monday at 11:30.

Col. F. Y. Smith and family of Alachua, accompanied by H. J. McCallum, spent Sunday here. They came in the handsome touring car owned by Col. Smith.

Master Kirkland and R. L. Galemore came in from fishing yesterday morning, bringing a string of beauties. Their catch weighed twenty-five pounds.

Dr. B. M. Tison left Tuesday for his home at Bronson. He was much benefited by a two weeks' stay here. Mrs. Hatchell returned to her home in Ocala Tuesday.

Mesdames Tomlinson and Maines, Misses Parrish and several others came over with picnicking party to spend the day.

Mr. and Mrs. C. H. Driggers, accompanied by her mother, Mrs. F. M. Douglas, spent Sunday here.

Mr. and Mrs. A. A. Durden of Hampton returned to their home after a pleasant stay of one week. They were guests of Hotel Worthington.

Mrs. W. J. Tompkins has entirely recovered from a recent illness.

Hon. Frank Clark and family are here, guests of Hotel Worthington.

Ballard Bill Signed.

MONTGOMERY, Ala., Aug. 19.—In the presence of a select party of prohibition workers and leaders and several of the W. C. T. U. leaders, Governor Comer yesterday afternoon signed the Ballard bill, providing submission of the question of a constitutional prohibition amendment to the voters within ninety days. As he signed it, the Governor turned to a W. C. T. U. leader:

"You ladies must get behind this bill and push it," he said. "The fight is not over yet. It is only started and we need your efforts."

"We don't stop until we get everything that we want," was the reply.

Six Counties Still Wet.

CHARLESTON, S. C., Aug. 19.—Complete unofficial returns from all the South Carolina counties in which liquor elections were held Tuesday show that the Prohibitionists carried fifteen counties, the county dispensary system winning in Aiken, Beaufort, Charleston, Florence, Georgetown and Richland counties. A contest in Richland county is considered likely.

Storm Did Damage.

The rural mail carriers in the northern and eastern section returning to the city on Thursday evening state that great damage was done by the wind storm which occurred about 12:30 p. m. Many trees have been uprooted and they were compelled to "snake" their way to close to the city on account of the damage in this manner.

PRES. TAFT BELIEVES THE LAW WILL STAND

Has No Fear of Efforts to Test Constitutionality of the Corporation Tax.

BEVERLY, Mass., Aug. 19.—Reports which are reaching Beverly daily from Washington and New York that the constitutionality of the new corporation tax is to be tested just as soon as an effort is made to collect it, have not disturbed President Taft. The President declared they were all anticipated.

Mr. Taft, himself a lawyer of some eminence, and father of the corporation tax idea, is thoroughly convinced that the tax will stand any test that may be applied to it. Attorney-General Wickersham, a corporation lawyer of note, and Senator Root, collaborated on the corporation tax provision of the tariff bill and the measure as enacted, they believe, will survive any attempt to nullify it.

Attorney-General Wickersham is coming to see the President today, but the prospect of litigation over the corporation tax has nothing to do with the visit. Mr. Wickersham has some pardon cases upon which he desires the President to act and he wants also to go over with Mr. Taft a few of the preliminaries in the plan for the reorganization of the duties of the Interstate Commerce Commission, the amendment of the Sherman anti-trust law and bringing interstate corporations more definitely under the control of one branch of the Government.

These subjects will be principal recommendations in the President's message to Congress next December. In his speech of acceptance in his inaugural address, and during his campaign tours, President Taft definitely committed himself to the so-called "Roosevelt policies" and declared that the principal aim of his administration would be to establish the necessary machinery to enforce these laws.

More Laws Will Be Called For.

According to Mr. Taft's views the machinery to enforce the laws on the statute books is now inadequate. He believes that the Interstate Commerce Commission is overcrowded with work; that the long delays incident to its investigations, and decisions un-

der existing conditions work a hardship alike to the railroads and the complainants with grievances. He believes that the commission ought to be relieved of its jurisdiction as an executive, directing body and that its functions should be limited to the quasi-judicial investigation of complaints made by individuals.

The President also believes that under the Sherman anti-trust law as it stands today there is much to interfere with legitimate business, but that by amendment it can be made an effective and just instrument.

To bring about a coalition of the law departments of the various government departments, which have to deal with railroads and other interstate corporations and "trusts" so as to permit of quick and decisive action in cases of offense against the statutes, is another of the tasks which the President has set himself to do.

A Mysterious Visit.

The President received a rather mysterious visit yesterday from Assistant Secretary of the Treasury Norton, who was accompanied by Charles G. Dawes, former comptroller of the currency, and now president of the Central Trust Company of Chicago, neither of whom would discuss the visit in any way.

Assistant Secretary Norton is in charge of the internal revenue division of the treasury, and his visit may have to do with the collection of the corporation tax.

Secretary MacVeagh, who will visit the President Friday or Saturday, will take up with him the appointment of the members of the tariff advisory commission authorized in the tariff bill. It is likely that at the conference between the President and Mr. MacVeagh a decision will be reached as to whether the commission shall consist of three or five members.

The President has not yet been advised by the members of the monetary commission headed by Senator Aldrich, whether or not they will be ready to report their recommendations at the forthcoming session of Congress.

Thaw Returned to Asylum For the Criminal Insane

MATTEAWAN, N. Y., Aug. 19.—Harry K. Thaw ate his supper last night at the Matteawan State Hospital for the Criminal Insane. He arrived at the institution ten minutes before 7 o'clock yesterday evening after a trip, under escort, from the White Plains jail, where he was forced to leave after several days' respite following the adverse ruling of Justice Isaac N. Mills on his application for release on a habeas corpus writ as a sane man.

Dr. Amos T. Baker, assistant superintendent of Matteawan, and two attendants brought Thaw back to the asylum from which he has fought so hard to obtain his release. A stage met them at the station and in it they journeyed to the institution.

The trip from White Plains was without untoward incident. At both the White Plains and Tarrytown stations a curious crowd assembled, hoping to get a glance at the young millionaire, but the prisoner paid little attention to the demonstration. Beginning today, the slayer of

Stanford White will resume the monotonous routine of the asylum life. Superintendent Lamb of the hospital said last night:

"There will be no change at all regarding Thaw's incarceration here. He will be subject to the same rules as before he left to go to White Plains.

"I did not take it from Justice Mills' decision that Thaw was to have any special privileges. We will follow the court's order, however, and if Thaw is not satisfied he can appeal to the courts. At present he will adhere to the old routine.

"I have not decided when he is to retire at night, but he will be given ample consideration in any request he makes."

Thirty-Cent Cotton.

MONTGOMERY, Ala., Aug. 19.—The highest price paid for cotton in Montgomery in twenty-five years was reached yesterday when the first new bale of the season from this county was sold at auction for 30 cents a pound.

WINNERS DECLARED FOR THE CONTEST

COUNT OF COMMITTEE SUSTAINED BY THE ADVERTISERS.

W. L. Denham, as Manager, Delivered the Prizes to the Successful Ones Thursday.

The prizes in the Co-Operative Contest, which was promoted by W. L. Denham, were Thursday awarded to the successful candidates as per the vote which was announced in Thursday's Sun.

Following the protests which were filed in the cases of Miss Beal vs. Miss Goode on the Crawford & Davis vote, and Miss Jolly vs. Miss English on the Eddins Manufacturing Company's vote, an effort was made by the manager to secure a meeting of all interested, but as a number stated they could not be present, at the suggestion of a number of them it was decided to get up a petition declaring the result as announced, which was signed as follows:

"We, the undersigned conductors and advertisers of the Co-Operative Contest, agree to accept the canvass of the committee and declare the winners as announced—Standard Fertilizer Co., Saunders & Earle, L. C. Smith, Brown House, Crawford & Davis, W. M. Johnson, Gainesville Hardware Company, Gainesville Furniture Company, P. Y. Smith, Eddins Manufacturing Co., Mrs. F. T. McCormick, N. Francisco, City Bakery."

Acting under the above the manager desires to state that he awarded the prizes which were contested and which had been settled, as he understood it.

The following cards from Mr. Eddins and Mr. Davis give their explanations of the votes objected to:

From Crawford & Davis.

Editor Sun: In justice to ourselves, I will state that the vote issued by Crawford & Davis, and which was in question in the contest, was for a future contract we secured and are now delivering, and we have received the equivalent to the money for the entire order. If necessary we can account for each and every vote issued by us. CRAWFORD & DAVIS.

By G. H. D.

August 19, 1909.

From Eddins Company.

Editor Sun: In reference to the Eddins vote which was contested, we desire to state that Mr. English had all of his votes remain here until the last day of the contest. Besides, he secured a large vote from us in the last week by purchasing three bills of lumber, all for houses complete, and this necessarily gave him a large vote. We stand ready to make any explanation necessary and can give evidence of all votes issued by us. EDDINS MFG. CO.

DEATH OF MRS. MAY.

Died from Tuberculosis After Painful Illness.

Mrs. J. W. May, wife of Hon. J. W. May, member of the Board of County Commissioners and one of the most prominent citizens of the Wacahoota section of the county, died at her home at Wacahoota Wednesday after long and painful suffering from tuberculosis.

Mrs. May was a noble Christian woman and had been active in her work up to the time the dreaded disease took such a firm hold upon her. By her genial and pleasant disposition she made many warm friends, all of whom extend to the husband and children their sympathy in this sad hour of bereavement.

The funeral ceremonies were held at Wacahoota Thursday afternoon. A large number of friends from Gainesville went over to be present, and citizens from miles around were there to pay their tribute to their departed friend.

Take Notice.

All persons are recommended to take Foley's Kidney Remedy for backache, rheumatism, and kidney and bladder trouble. It will quickly correct urinary irregularities, which, if neglected, may develop into a serious illness. It will restore health and strength. Do not neglect signs of kidney or bladder trouble and risk Bright's disease or diabetes. J. W. McCollum & Co.

The Old Roman Ballot.

The ballot was first introduced into Rome in the second century B. C. This was the real Australian ballot. The voter received a sort of wooden slate covered with wax on which the names of all the candidates were scratched. He made holes in the wax opposite those of his choice and dropped his tablet in the box. After the downfall of the Roman republic popular government took a long sleep, and there was little use for a ballot till quite modern times.

LOTTIEVILLE NEWS.

Honor Roll of Public School—Personal Notes of Interest.

LOTTIEVILLE, Fla., August 19.—Since the last honor roll was published the enrollment of our school has reached ninety-four. There are several out, however, on account of sore eyes and whooping cough. Then others are having to be absent in order to save the cotton which is opening rapidly. The following is the second honor roll, and the pupils named have certainly worked hard to be so enlisted: Annis Colson, Lora Roberts, Cartha Matthews, Marion Lloyd, Lizzie Curry, Lula Matthews, Bessie Roberts, Mollie Peterson, Loca Matthews, Mamie Matthews, Lottie Mikell, Cleo Mikell, Alma Everett, Onnie Osteen, Ellie Caraway, Alma Matthews, Aaron Polk, Singleton Barker, Desha Sanders, Festus Roberts, Osburn Hudson. Primary department—Alice and Olive Clark, Mertie Ward, Oceola Clark, Edith Weil, Effie Curry, Ione Lindsey, Morris Yates and Ventris Love.

Mrs. S. D. Mikell returned home Wednesday after a pleasant visit to her daughter, Mrs. G. W. Miller of Gainesville.

Dr. W. Hartridge Lee of Melrose spent a few days here last week as guest of Festus Roberts. He returned to Lake Butler Friday, where he is located as dentist.

A protracted meeting is being conducted at the Baptist church here by Rev. Ward and Rev. Griffin is assisting him. Much interest is being manifested, three being baptized Monday.

There is to be a basket picnic at Fannin Springs, on the Suwannee, Saturday, August 21st. All are invited to attend.

S.S.S. NATURE'S PERFECT TONIC

Something more than an ordinary tonic is required to restore health to a weakened, run-down system; the medicine must possess blood-purifying properties as well, because the weakness and impurity of the circulation is responsible for the poor physical condition. The blood does not contain the necessary quantity of rich, red corpuscles, and is therefore a weak, watery stream which cannot afford sufficient nourishment to sustain the system in ordinary health. A poorly nourished body cannot resist disease, and this explains why so many persons are attacked by a spell of sickness when the use of a good tonic would have prevented the trouble. In S. S. S. will be found both blood-cleansing and tonic qualities combined. It builds up weak constitutions by removing all impurities and germs from the blood, thus supplying a certain means for restoring strength and invigorating the system. The healthful, vegetable ingredients of which S. S. S. is composed make it splendidly fitted to the needs of those systems which are delicate from any cause. It is Nature's Perfect Tonic, free from all harmful minerals, a safe and pleasant acting medicine for persons of every age. S. S. S. rids the body of that tired, worn-out feeling so common at this season, improves the appetite and digestion, tones up the stomach, acts with pleasing effects on the nervous system, and reinvigorates every portion of the body.

THE OAK HALLS LOSE IN VERY PRETTY GAME

SCORE WAS THREE TO TWO AT
END OF NINTH INNING.

Barnett of Orlando Knocks Ball Over
Fence for Home Run for First
Time This Season.

Orlando 3, Gainesville 2.

The above is the way it was handed to the Oak Halls at the ball park on Thursday afternoon, when the largest crowd for some time past went out for the purpose of witnessing the contest.

The Orlando players arrived early in the morning, which gave them plenty of time for rest, and the game put up by them was one of the best that has been seen on the Gainesville diamond for some time. There is no doubt about the fact that this "lay out" of ball players is the best that has visited us this season, but the great and much-talked-of Smith was found for seven hits, while a number of the Oak Halls not only passed the second sack, but some of them went to third, and two came home, breaking his magnificent record to "smither-ens," so far as Manager Davis' "kids" are concerned.

Of course "Pop" is not styled with such high salaried players, but the manner in which he pitched yesterday was all that could be desired by the most ardent fans, and many were the times that he was compelled to pull himself out of "holes" for which he was in no wise to blame. Some especially beautiful work was done by him in the fifth.

Hendricks made a drive over the fence, but it was just a little over the line, and was called a foul, while the drive of Barnett for the visitors went clean and gave the visitors the two runs made in the eighth. Graham made a nice safe one just when it was needed, scoring two men and again smashing Orlando's record for "shut outs."

The visitors are "there with the goods" when it comes to playing ball, however. They come nearer matching up with the home team than anything they have gone after this season, and the remaining two games will be

of the greatest interest, with the Oak Halls taking one, if not both.

Go out today, and take your friends, for very few of that faithful lot of "rooters" were present at the park yesterday, and the few that were there did not make themselves known to any extent.

Ocala sent a large delegation up to witness the game, and more will very likely come up today. Besides Archer, Micanopy and other small towns nearby are doing better than Gainesville when it comes to being loyal after the "hard luck" that has hung to the Oak Halls so long.

PARTY AT ROCHELLE.

ROCHELLE, Aug. 19.—On Aug. 13, at the home of her parents, Mr. and Mrs. J. N. Shealey, Della Mae entertained very charmingly a few of her friends in honor of her twelfth birthday. Assisting the lovely little hostess in entertaining was her mother and charming cousin, Miss Lois Bray of Ocala, and it is needless to say that they all proved themselves excellent entertainers. During the entire evening various games were played. Ice lemonade was served by Miss Lois Bray which was immensely enjoyed owing to the evening being very warm. Those who were so fortunate as to be present were Misses Lois Bray of Ocala, Nannie and Irene Jones, Velma Jennings, Messrs. J. S. Roberts, Bobbie Guthrie, Lee Thomas, Louie and Carl Perry, Horace and Wallace Zetrouer.

At 10:30 ice cream and cake were served, after which all presented the little hostess with several very handsome presents. Assuring her they had enjoyed the evening to the full extent and wishing her many returns of the evening, all bade her good night. A GUEST.

WAS BADLY INJURED BY KICKING HORSE

YOUNG LADY KNOCKED DOWN
BY THE WILD ANIMAL.

Had Visited the Stable for Purpose
of Feeding Animal When
She Was Kicked.

Miss Maude Jeffcoat, a young lady who is residing with her parents about five miles west of Gainesville, was seriously injured on Wednesday evening when she was kicked in the face by a young horse which she was attempting to feed.

She had visited the stable for the purpose of putting in the regular feed, and when she stooped to pick up a small stick to make him stand to one side of the stall, he kicked her on the head, inflicting a very painful and serious wound.

The young lady was picked up by other members of the family who heard her screams, and taken to the house, when Dr. J. H. Hodges was called and dressed the wound, pronouncing it a painful one.

The horse was a young colt and had been practically raised by the family and never known to be untamable, in fact he was considered safe and gentle in every way. At last accounts the young lady was resting well and hoped for her early recovery were entertained. The doctor is of the opinion that no bones were fractured.

MRS. JOHNSON KNOWS.

She Says That Parisian Sage is the
Only Real Hair Tonic.

Parisian Sage is the quick acting hair grower that can now be obtained in America and that is guaranteed by W. M. Johnson to cure dandruff, stop falling hair and itching scalp in two weeks or money back.

Mrs. Johnson says:
"Parisian Sage is the only hair tonic that ever benefited my hair. I began and used it daily for a while, afterwards I used it according to directions. I am absolutely positive that it will thoroughly cleanse the scalp and hair, stop irritation, eradicate dandruff, stimulate the growth of the hair, prevent baldness, and make the hair soft and silky."—Mrs. Sue Johnson, 229 4th street, Frankfort, Ky.

Parisian Sage is a most delicately perfumed hair dressing and has not a particle of stickiness or greasiness in it.

Women who desire beautiful and luxuriant hair that will attract and fascinate, should use Parisian Sage. Leading druggists everywhere sell it. W. M. Johnson sells it in Gainesville for 50 cents a large bottle, and guarantees it to give satisfaction, or money back. The girl with the auburn hair is on every package. Made in America by Giroux Mfg. Co., Buffalo, N. Y.

Gainesville Aerie Honored.

At the meeting of the Eagles held at Ocala for the purpose of organizing a State Aerie, Gainesville was honored by the selection of one of its members, Jas. I. Blake, to be Inner Guard. The meeting was a grand success, all local aeries having representatives on the scene for the purpose of organizing the State Aerie.

Women Suffer Agonies from Diseased Kidneys And Most Women Do This Not Knowing the Real Cause of their Condition

These poor, suffering women have been led to believe that their misery of mind and body is entirely due to "ills of their sex." Usually the kidneys and bladder are responsible—or largely so. And in such cases, the kidneys and bladder are the organs, that need and must have attention.

Those torturing, enervating sick headaches, dragging pains in back, groin and limbs, bloating and swelling of the extremities, extreme nervousness or hysteria, listlessness and constant tired, worn-out feeling—are almost certain symptoms of disordered and diseased kidneys, bladder and liver.

DeWitt's Kidney and Bladder Pills have, in thousands of cases, been demonstrated as remarkably beneficial in all such conditions of female organism—affording the most prompt relief and permanent benefit.

As an illustration of what these Pills will do, Mrs. P. M. Bray of Columbus, Ga., writes that she was very ill with kidney trouble, and that she is now well—and that these Pills are what cured her.

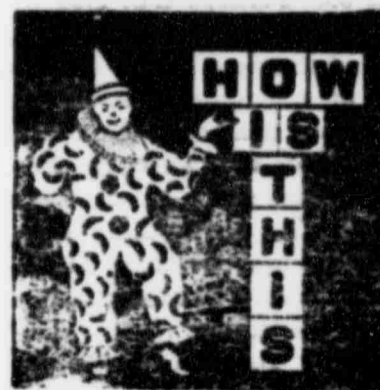

They are very pleasant to take, and can in no case, produce any deleterious effects upon the system—as syrupy, alcoholic, liquid prep-

arations are apt to do.
E. C. DeWitt & Co., Chicago, Ill., want every man and woman who have the least suspicion that they are afflicted with kidney and bladder diseases to at once write them, and a trial box of these Pills will be sent free by return mail post-paid. Do it to-day.

Are YOU Being "Hunted?"

One of today's want ads. may be hunting you—ransacking the city for you. It may have a message for you of urgent personal importance—one that, when you get it, and heed it, may change the immediate currents of your activities, of your interests—may even place around and about you new environments, new associates; may give you an entirely new start in a business way.

Isn't it worth while to try to find out whether this may not be true—today, tomorrow, or very soon?

TELEPHONE TALKS

The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems,

operating in various sections of the country, are uniform in their equipment and in their methods of operating.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere, ask for "Long Distance" and be put in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

President Taft is going to take a swing around the circle. Naturally it is to be a large circle.

If Nero fiddled while Rome burned, doesn't Taft golf while America sizzles? You can't beat him.

Nobody could blame either Mr. or Mrs. Harry Thaw if in the future they do not speak when they meet.

Yet the Democrats console themselves with the thought that half a census loaf is better than no bread.

It will not be long before flying machines and dirigible balloons give "sky pilot" a new and more literal meaning.

Experts continue to experiment for the production of seedless fruits, when what is needed is a guaranteed painless variety.

Mark Twain has been compelled to reduce his daily smoke from 40 to 4. Now, there's a reduction that reduces the consumer.

We stubbornly cling to the opinion that the joke will eventually be on the gentleman who inserted the "jokers" in the tariff bill.

A great future is predicted for Africa. It will be strange indeed if President Roosevelt does not leave a trail of reform movement behind.

Quite fitting that Postmaster-General Hitchcock, as the youngest of the administration family, should stay in Washington and answer the doorbell.

If Mr. Roosevelt is ever elected President again we shudder to think of the outlay of African big chiefs that will come a-visiting in Washington.

It is to be hoped that those Senators and Representatives who have gone to Europe are posted on the terms of the tariff law they have just made.

Many statesmen must envy "Uncle Joe" Cannon the privilege of appearing before his constituents as a plain son of the people who didn't want a \$6,000 automobile.

Baseball is said to be growing in popularity throughout Europe. Some of those kings over there will never know what real sorrow is until they get a baseball team that goes out and snatches the booby prize every year.

Miss Chrystal Eastman, who has been appointed by Governor Hughes on the commission to inquire into the question of the employers' liability and the causes and effects of unemployment, is the only woman on the commission. She is the daughter of the Rev. S. E. and the Rev. Annie E. Eastman, joint pastors of Park church, Elmira, N. Y.

The British House of Commons has unanimously passed to second reading the South African constitution bill granting constitutions to the South African colonies. Ex-Premier Balfour denies the report that the blacks will be given equal rights with the white races, saying that such equality is impossible without threatening the whole fabric of our civilization.

THE CO-OPERATIVE CONTEST.

The Sun regrets that any dissatisfaction should have arose over the Co-Operative Contest recently closed in this city which was advertised through this paper; and in this connection we wish it distinctly understood that The Sun had no more to do with the contest than any other business house that participated therein, our contract with the promoter of the contest, W. L. Denham, being simply to do the advertising, in consideration for which we were permitted to give votes for subscriptions, job work and advertising, as well as being paid a certain amount in cash. The Sun had no more to say about the giving of votes by other firms than they had to say about what we did in this line, and we are not responsible for the action of any one in this particular except for the votes issued by this office.

We were perfectly willing to meet with the other conductors of the contest and hear and determine the complaint filed with Mr. Denham by the two contestants in the Gainesville and Eastern districts, but a majority of the conductors of the contest declined to take up the matter and Mr. Denham ordered the piano and diamond ring delivered to the successful candidates as shown by the count.

CURRENT COMMENT.

The Montgomery Advertiser says: "With the Legislature out of the way Georgia might feel good were it not for the McLendon case, which still hangs on. Perhaps that also will end some day."

The Baltimore News (Ind.) says: "One of the funny things about a tremendous fight over tariff schedules is that, after it is all over, the fellow who buys the goods cannot see where he comes in. Everything is just as high as it was before. All he gets is a promise of 'adjustment' some time in the future."

The New York World (Dem.) says: "Bankers wonder whether 'trade will follow the loan' into China. Why should it? We now sell each German \$4 worth of goods, each Briton \$13 worth, each Canadian \$33 worth—and each Chinese 5 cents worth! Why should our compelling China to borrow money she doesn't need, to give Mr. Morgan a look in, cause each grateful Celestial hereafter to spend 5 cents a year at our shop?"

The Baltimore Sun says: "The South needs capital and development. There is employment in the cotton States for every dollar that can be raised there and an almost limitless field for the profitable investment of the great surplus capital of the North. The carnival will perform the useful purpose of attracting people from other States who, when they come, can see for themselves the industrial awakening of the South and the opportunities that it offers for profitable investment."

Hon. Fabian Law of Green Cove Springs died very suddenly at Jacksonville last Wednesday of apoplexy. Col. Law was formerly a member of the State Senate from the district comprising Baker and Clay counties and was mayor of Green Cove Springs at the time of his death. The Times-Union of Thursday gives the following account of his death: "Col. Law was passing down Bay street in the heat of the afternoon and as he felt faint went into the store at 822 to rest and cool off, sitting down and apparently going to sleep, his head falling forward as though resting quietly. No one in the store at the time suspected that he was dead, as there had been nothing peculiar about his appearance, and not until a man tried to awaken the supposed sleeper was it found out that he was dead. There was not a tremor of the body when he was stricken and in no way was it noticeable that life was passing away. As soon as the people in the store saw that Mr. Law was unconscious they summoned assistance, but it was too late for any human aid."

Cured Hay Fever and Summer Cold.

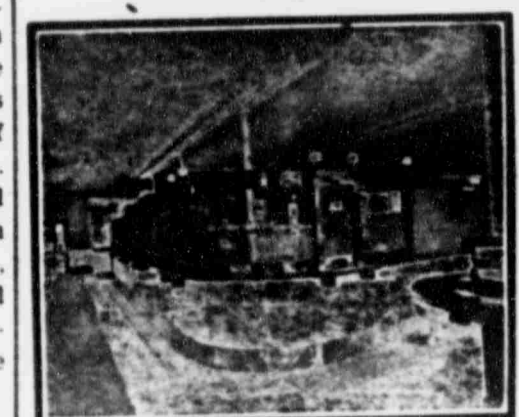

A. S. Nusbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed only to aggravate it. Fortunately I insisted upon having Foley's Honey and Tar. It quickly cured me. My wife has since used Foley's Honey and Tar with the same success." J. W. McCollum & Co.

POPULAR MECHANICS FOR SEPTEMBER.

Enthusiasm and interest in aeronautics is always at highest pitch during the mid-summer and fall months when weather conditions are apt to be more favorable for flights. The September number of Popular Mechanics contains no less than 18 articles on aerial navigation, treating all the latest developments of the science and describing the cross channel flight of Bleriot; Latham's courageous failure, and Wright Bros' recent triumphs; also describing machines which have not been so much in the limelight, but which, nevertheless, give promise of accomplishing something. So far from being carried away by popular enthusiasm, however, in his editorial H. H. Windsor in a clear and sensible manner points out some of the drawbacks of the aeroplane and seeks to justly appraise what has been accomplished in its true relation to the machinery of war. The September number contains in all 224 articles and 252 illustrations covering as great a variety of subjects as usual. The article on Chicago's new fireboat is one of prime interest, describing as it does a system of control as efficient as it is unique. James Arthur's second chapter of "Time and Its Measurement" fulfills the promise of the first; the first installment of a series of articles on denatured alcohol, telling in plain language all that the public would like to know on the subject, and written by an unquestionable authority, Dr. Harvey W. Wiley, Chief of Bureau of Chemistry, U. S. Department of Agriculture, appears in this number; an article on making moving picture films proves that industry almost as entertaining as the productions are to the thousands of persons who view them. The peanut industry and its possibilities are discussed in a well illustrated article; full details are given for making photomicrographs inexpensively; street life in Paris, where fakirs and vendors carry on business without fear of being molested, is described in picture and story. The magazine always abounds with pictures which are unique in subject, hard to secure, and extremely interesting.

NEWS FROM ALL
PARTS OF FLORIDA

Harvey Tomlinson of St. Augustine has purchased from Miss Ida Morrill a lot of land on the shore of Lake Maranacook, opposite Craig's point, known as the Sherburne Lawrence point, and will build a summer hotel there next season.—St. Augustine Record.

At the regular meeting of the city council held in Ocala Tuesday night the bids for the remodeling of the city market were opened and the contract awarded. The plans call for many conveniences, and the new building will be in perfect shape with the many other improvements now under way in that city.

The State rifle team left St. Augustine last night in a day coach. At Jacksonville they transferred to a sleeper and from there will go direct to Camp Perry without change. They will arrive at their destination tomorrow and will spend the remainder of the week practicing, entering the national matches next week.—St. Augustine Record, Aug. 17th.

The Tampa Ice Company, 818 Zack street, will commence the erection of a seventy-ton ice plant at Palmetto about September 1. Palmetto is a live little city on the Manatee river, opposite Bradentown, the capital of Manatee county. It does a considerable business in fruits and vegetables and its fishing industry will take up considerable of the product of the ice plant.—Tampa Times.

Henry Peru, the Cuban who attempted to commit suicide by leaping from the Fortune street bridge into the Hillsborough river, but who gladly allowed himself to be rescued, has been released from the county jail. Peru has thought better of the matter and will try and remain intact on terra firma as long as possible. There is no law against attempted suicide in this State.—Tampa Times.

Monday afternoon blasts were heard from a steamer that was passing outside off Palm Beach and soon a boat left its side and came ashore, bringing two ladies and a gentleman, the latter on a stretcher. The man was suffering from appendicitis, and

HER
PHYSICIAN
ADVISEDTaking Lydia E. Pinkham's
Vegetable Compound

Columbus, Ohio.—"I have taken Lydia E. Pinkham's Vegetable Compound during change of life. My doctor told me I was good, and since taking it I feel so much better that I can do all my work again. I think Lydia E. Pinkham's Vegetable Compound a fine remedy for all woman's troubles, and I never forget to tell my friends what it has done for me."—Mrs. E. HANSON, 304 East Long St., Columbus, Ohio.

Another Woman Helped. Graniteville, Vt.—"I was passing through the Change of Life and suffered from nervousness and other annoying symptoms. Lydia E. Pinkham's Vegetable Compound restored my health and strength, and proved worth mountains of gold to me. For the sake of other suffering women I am willing you should publish my letter."—Mrs. CHARLES BARCLAY, R.F.D., Graniteville, Vt.

Women who are passing through this critical period or who are suffering from any of those distressing ills peculiar to their sex should not lose sight of the fact that for thirty years Lydia E. Pinkham's Vegetable Compound, which is made from roots and herbs, has been the standard remedy for female ills. In almost every community you will find women who have been restored to health by Lydia E. Pinkham's Vegetable Compound.

Dr. H. C. Hood was called, who made the sufferer as comfortable as possible and sent him off on the night train for Jacksonville to be operated on, there being no facilities there for such operations.

J. W. Lester of Boston succeeds D. Black, who has resigned as auditor of the Tampa Northern railroad. Mr. Lester was formerly in President Ayres' office in Boston and comes with the highest recommendations as an official. Capt. W. B. Denham, general manager of the Tampa Northern railroad, left for Brooksville Wednesday morning. It is understood that this road will begin at once on the extension of the road from Brooksville to Dunnellon.—Tampa Times.

The Schooner Future, 518 tons, Capt. McDonald, which has been anchored at Mayport since arriving in distress, was Wednesday afternoon towed up to this port by the tug Biscayne, Capt. Johnson, and will be beached on the south side, in order to stop the leakage as much as possible, and give the men on the vessel some relief, who have been at the pumps since last Tuesday night, when the schooner struck 300 miles south of the St. Johns bar. The Future is loaded with cement for Pensacola.—Pensacola Journal.

The Steamer Genevieve, Capt. Chester Williams, which plys between St. Petersburg and Tampa, was put out of commission at its docks in St. Petersburg by an explosion of gas and the fire which followed. Testing the motor just before starting there was a loud explosion and in a moment the boat was in flames. An alarm was turned in and the fire company responded and saved the boat from any great damage through this source. The greatest loss to the owner, Capt. W. J. Thornton, lies in the force of the explosion which ripped up the docks and injured the machinery. A leak had occurred in the gas pipe from the tank to the carburetor beneath deck and when the engine was started a spark from the battery ignited the gas.—Tampa Times.

An act of vandalism was committed in West Palm Beach last Friday night that the city marshal and others interested are offering a reward to find out the perpetrator. There are two fine rubber trees in front of the Munyon property on Narcissus street, near the judge's cafe and restaurant, under and between which is a commodious bench for people to sit down on in the shade and rest. The city marshal and others use this bench every day and it is quite a convenience for all. Saturday morning the first ar-

rivals at the bench saw some auger chips lying on the ground at the foot of the tree at the south end of the bench and further investigation developed the fact that some miscreant had bored three holes in the tree near its base, the holes being about 3/4-inch in diameter and about four inches or more deep, and filled them with kerosene, evidently to kill the tree. What the object of this was it is hard to tell unless it be to take away that much shade from the bench and make it an undesirable resting place, but even if this one tree dies the other will furnish sufficient shade if the bench is merely moved a few feet north, so even this object would not be gained unless the other tree is also killed, and it would hardly be safe for anyone to attempt to do that, especially just at present. It will go hard with the party who committed this act of vandalism if he is caught.—Miami Metropolis.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O.

"Would you mind telling me," asked Mrs. Boardlot, glancing admiringly at the athletic shoulders of the prospective boarder, "how do you keep in such splendid physical condition?"

"I go through a few gymnastic exercises every morning," confessed the young man, flushing.

"Well, I'm sorry, but we can't board you. I've had the bathroom monopolized that way before."—Kansas City Times.

ABOUT ADVERTISING—NO. 6

If It Fits You Wear This Cap

By Herbert Kaufman

Advertising isn't a crucible with which lazy, bigoted and incapable merchants can turn incompetency into success—but one into which brains and tenacity and courage can be poured and changed into dollars. It is only a short cut across the fields—not a moving platform. You can't "get there" without "going some."

It's a game in which the worker—not the shirker—gets rich.

By its measurement every man stands for what he is and for what he does, not for what he was and what he did.

Every day in the advertising world is another day and has to be taken care of with the same energy as it's yesterday.

The quitter can't survive where the plugger has a ghost of a chance.

Advertising doesn't take the place of business talent or business management. It simply tells what the business is and how it is managed. The snob whose father created and who is content to live on what was handed to him can't stand up against the man who knows he must build for himself.

What makes you think that you are entitled to prosper as well as a competitor who works twice as hard for his prosperity?

Why should as many people come to your store as patronize a shop that makes an endeavor to get their trade and shows them that it is worth while to come to its doors?

Why should a newspaper send as many customers to you in half the time it took to fill an establishment which advertised twice as long and paid twice as much for its publicity?

This is the day when the best man wins—after he proves that he is the best man—when the best store wins, when it has shown that it is the best store—when the best goods win, after they've been demonstrated to be the best goods.

If you want the plum you can't get it by lying under the tree with your mouth open waiting for it to drop—too many other men are willing to climb out on the limb and risk their necks in their eagerness to get it away from you.

It is a man's game—this advertising—just hanging on and tugging and straining all the time to get and keep ahead. It is the finite expression of the law of competition which sits in blind-folded justice over the markets of the world.

(Copyright, 1908, by Tribune Company, Chicago.)

"That Which Is Worth Having Is Worth Advertising For"

The old adage that what is worth having is worth asking for is still true—true of the more intricate life of today.

The thing you want—whether it is a used piano or a home, whether it is a ready-made business or a lost pocket-book—is obtained readily through advertising, and with difficulty, or not at all, through other means.

THE SUN "WANT" ADS. BRING RESULTS

GAINESVILLE, —THE— University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Paine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance.

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit

a few of them in the following enumeration of what

Gainesville Has:

One artist.
No saloons.
One garage.
Four hotels.
Four banks.
One foundry.
Water works.
Ten churches.
One gas plant.
Two tin shops.
Three bakeries.

Two ice factories.
Six music schools.
One variety store.
One public library.
Two wagon works.
Two planing mills.
Two racket stores.
Two lumber yards.
One marble works.
Three silversmiths.
Three wood yards.
Five dental rooms.
One express office.
Free mail delivery.
Four beef markets.
Eight barber shops.
Two public schools.
Two music houses.
A telephone system.
Two haberdasheries.
Two abstract offices.
Four pressing clubs.
Two machine shops.
Two bottling works.
Six boarding houses.
One Catholic church.
A military company.
Three jewelry stores.

First-class sewerage system.
Two fertilizer manufactories.
Five fire insurance agencies.
Two livery and feed stables.
One crate and basket factory.
One Elks' Club reading room.
Hardwood Manufacturing Plant.
Agricultural Experiment Station.
Florida Winter Bible Conference.
Five dressmaking establishments.
National Odd Fellows' Sanitarium.
Three undertaking establishments.
Two of the best hotels in the interior.
Two wholesale grain and feed stores.
Two wholesale grocery establishments.
Water "that has made Gainesville famous."
The finest opera house in the State outside of Jacksonville.
A Government building soon to be erected to cost when completed \$150,000.
Carpenters, masons, plasterers, painters, printers, machinists and laboring men galore.

More miles of paved streets and granolithic sidewalks than any other town in the interior of the State.
An \$85,000 court house built of brick and stone—a beautiful structure—and the lawns, flower beds, shrubbery, Confederate monument, etc., surrounding it, make it a most attractive picture.

Scott, pastor of the Methodist church, officiating. Col. Stripling is well-known throughout the State as a lawyer of great ability. Mrs. Blackwell has resided in Jasper for several years. She has always been closely identified with every movement that pertained to the town socially and religiously. She possesses all the gifts that pertain to ideal womanhood and has a large circle of friends that regret to see her leave the city. The bridal party left on the southbound train at 9:30, sailing on the Clyde liner for New York. In a few weeks they will return to Jacksonville, where they will reside.

Miss Jolly Expresses Gratitude.

To My Friends in the Piano Contest: I take this method of expressing to you my deep appreciations and gratitude for the interest you have manifested in my behalf in the piano contest which has just closed, and I only regret the circumstances which preclude you from sharing in the pleasure which would have attended my victory.

Assuring you that the recollections of your efforts in my behalf will always remain with me a pleasant memory, I am, Yours very gratefully,
